

BECOME A PROFESSIONAL GEOGRAPHER

CONSTRUCTION & THE BUILT ENVIRONMENT

LEVEL 4 LAND REFERENCER APPRENTICESHIP | DAY RELEASE | BIRMINGHAM

Land referencers play a vital role in securing land for new infrastructure projects by connecting people, places and environments

New projects will generate

- green energy
- secure clean water
- connect communities and
- protect us from climate change

New and upgraded infrastructure ensures we have a fair and sustainable future

Land referencers work collaboratively with a range of professional disciplines:

Community
Engagement
and Social
Outcomes

Environment
and
Sustainability

Planning
and
Legal

Engineering
and
Design

Our employers are market-leading professional consultancy and engineering organisations who offer competitive pay, investment in your training and career progression to becoming a professional land consultant in the field of geography.
